Issue #1
April 2006

We would like to welcome you to our first issue of our Product Updates newsletter where we strive to keep you updated with our latest product offers. We believe you would benefit much from this quick digest but nevertheless, we welcome any feedback from you to help us improve our newsletter.

Brief content of this issue:

-
- 1) Omron Sensor Online Selection Guide & Promotion
 - 2) Omron CPM1A promotion (Free power supply with every CPU purchase)

Note: Look out for our next issue where we will be announcing new PLC product, new low cost color Vision sensor and Temperature Controller, etc.

New Introduction

* Omron Sensor Online Selection Guide & Promotion

We would like to introduce you to the latest online selection service offered by Omron in their website. With this new innovative web service, you will be able to select the right sensor easily through application, specification or model selection. The brochure is also readily available for your download after the quick selection process.

Experience the convenience from this link here -> http://www.omron-ap.com/selection_guide/main.asp (Register for free to be an Omron member to access the library!)

Click here to check on the latest sensor promotion where we are offering selected Fiber amplifier at attractive price -> <http://www.precicon.com.sg/campaign/omronfiber/Apr06-FiberCampaign.gif> (click on the enlarge button at the bottom right hand corner of the image to view full size)

Omron has a wide range of sensor products:

- a) Fiber unit
(With more than 100 different models there is always one suitable for your application)
- b) Photoelectric sensor
(Check out the latest Smart sensor solution, ZS model with high precision accuracy)
- c) Displacement sensor
- d) Vision sensor
- e) Safety sensor
- f) Proximity sensor
- g) Photo Microsensor

- h) Rotary encoder
- i) Pressure sensor
(Are you aware we have a 4 channel pressure sensor ?)
