

# Digital Retrofit Program

With the arrival of the fourth industrialization and the government initiative to push for productivity. Business owners are now looking to maximize their assets, increase operation and improve productivity. On their road to Industrial 4.0, they face common issues found with legacy machines.

## Why Retrofit?

**Breathe New Life Into Legacy Machines**

**We help companies to transform**

### REDUCE DOWNTIME

Through digital retrofit, your asset lifetime will be maximized and enhance working condition

### PREDICTIVE MAINTENANCE

Monitor your machine status and know when to conduct maintenance before the machine break down

### TRACKING & TRACEABILITY

Empower your users to make informed decisions during the production process

### REAL TIME DATA UPDATE

Modern machine controllers enable users to pull data real time to enable seamless integration

# Our 3 Simple Steps to Digital Retrofit

How can we help you?

## 1. CONSULT

with customers to analyze existing machine and recommend improvements

## 2. SUPPLY

customized solution and product that complements your existing machine

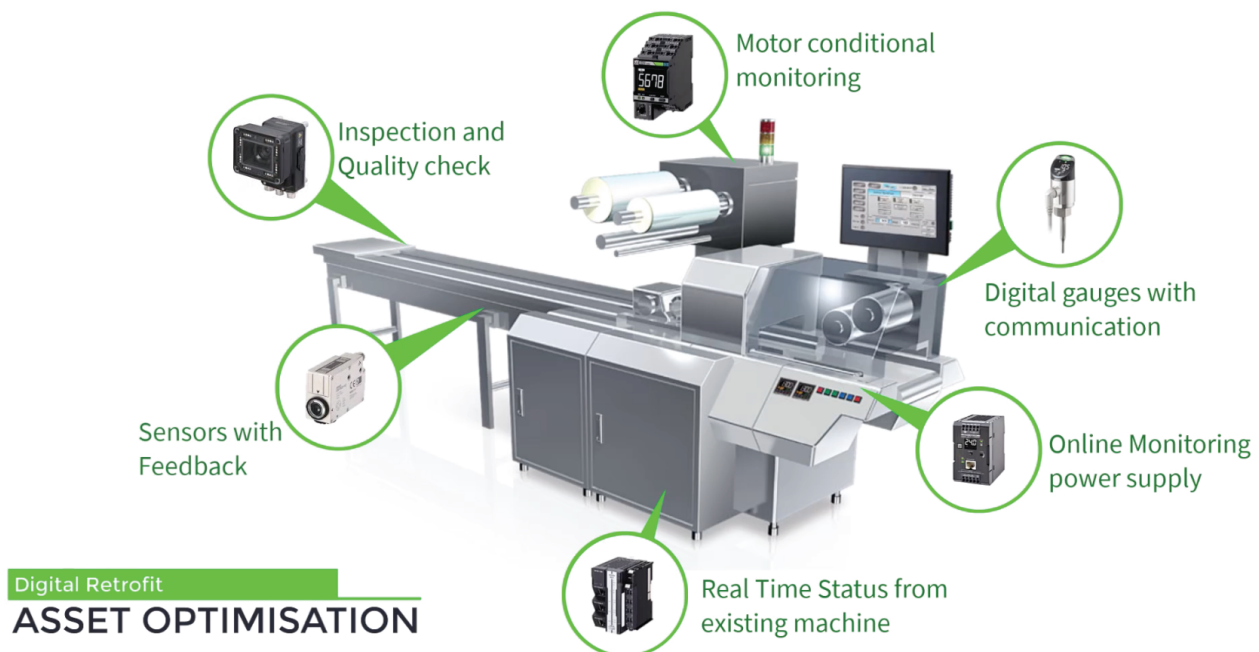

## 3. SUPPORT

your company in setting up, testing and commission with our trusted partners, also includes training

With the below products and solutions we have transformed many companies, bring them on a journey to digitalisation and Industrial 4.0

**Improve Your Machine Capability,  
Maximise Your Operation Efficiency**

***We are happy to help. Contact us and we will get back to you!***
